Preface

At Rajagiri Viswajyothi College of Arts & Applied Sciences (RVCAS), we prioritize feedback from our diverse stakeholders, including students, teachers, alumni, and employers. Through Google Forms, we collect insights that inform our quality assurance initiatives. Our Internal Quality Assurance Cell (IQAC) analyzes this feedback, identifying strengths and areas for improvement. We develop targeted action plans to enhance the academic environment and student experience.

By actively seeking feedback, we foster a culture of open communication, continuous improvement, and collaborative decision-making. We believe that feedback is essential for shaping our educational policies, infrastructure development, and teaching methods.

This report demonstrates our commitment to transparency and accountability, highlighting the diligent efforts of our administration, faculty, and staff in addressing stakeholder concerns. We appreciate the valuable feedback and insights provided by our stakeholders, which has driven positive changes.

This feedback report serves as a guiding document, reaffirming our dedication to continuous improvement and inclusive learning at RVCAS.

Stakeholders' Feedback Analysis Report 2020-2021

Rajagiri Viswajyothi College of Arts & Applied Sciences(RVCAS) recently embarked on a ground-breaking feedback survey, gathering invaluable insights from a diverse pool of stakeholders, including students, teachers, alumni, and employers. The survey delved into the heart of our curriculum, seeking perspectives on its relevance, comprehensiveness, and real-world applicability.

The analysis unveiled a treasure trove of findings, showcasing strengths like industry-aligned curriculum and the nurturing of critical thinking and practical skills. Meanwhile, areas for growth emerged, such as the need for interdisciplinary courses and the seamless integration of emerging technologies.

These pivotal insights will serve as the cornerstone for future curriculum development, ensuring RVCAS remains at the forefront of academic innovation and professional relevance.

Feedback Mechanism

RVCAS prioritizes gathering feedback from a diverse group of stakeholders, including students, alumni, faculty, and employers, to enhance its curriculum and academic environment. This feedback collection is a key part of RVCAS's Quality enhancement initiative, which is overseen by the Internal Quality Assurance Cell (IQAC).

To ensure comprehensive feedback, a dedicated team of faculty members meticulously prepares questionnaires or google forms that systematically collect feedback from stakeholders. These forms contain scale items, allowing respondents to express their levels of agreement or satisfaction on various topics.

Through this robust feedback collection mechanism, RVCAS gathers valuable data from students, alumni, faculty, and employers, informing continuous improvement efforts and ensuring the highest standards of education and campus life.

Feedback Analysis

The Internal Quality Assurance Cell (IQAC) at RVCAS plays a crucial role in analyzing feedback from various stakeholders. The IQAC team compiles a comprehensive feedback summary and creates department-specific reports, which are essential for understanding the unique needs and suggestions of each department. These reports enable the college to implement tailored improvements and drive strategic enhancements across the college, ensuring continuous quality improvement.

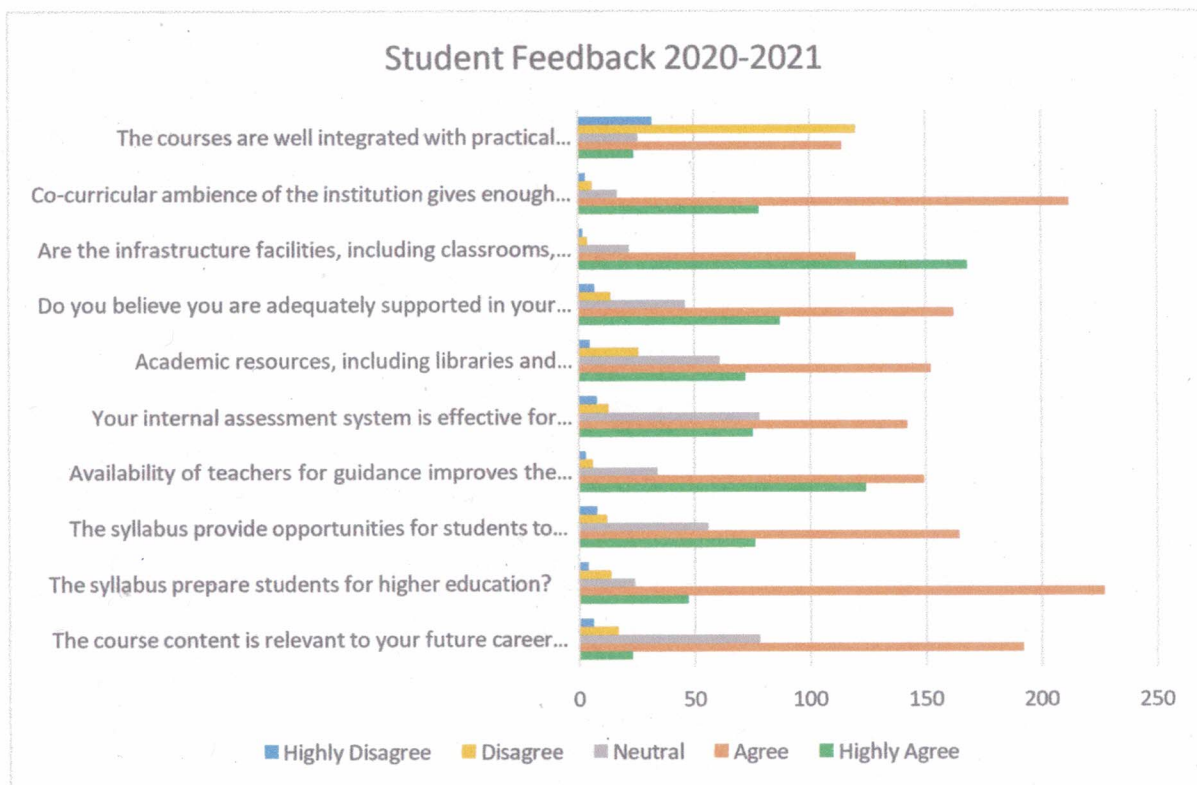

Action Plan

Based on the feedback analysis, the IQAC and departments at RVCAS develop and implement targeted action plans. These plans aim to enhance the educational experience and may include modifications to the curriculum, teaching methodologies, or infrastructural changes. The IQAC prepares an Action Taken Report, which reflects the feedback and subsequent actions taken during the respective year. This report is then submitted to relevant authorities, including the university. To ensure transparency, the feedback analysis and details of the actions taken are published on the college website, keeping all stakeholders informed of the continuous improvements being made.

Student Feedback Analysis Report 2020-2021

The student feedback analysis reveals a overwhelmingly positive perception of the institution's various aspects. The majority of respondents (316 students) expressed a favorable experience, with most indicating agreement or strong agreement with the statements. Below is a detailed summary of the feedback received:

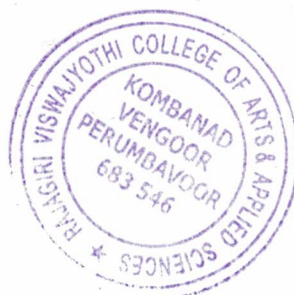

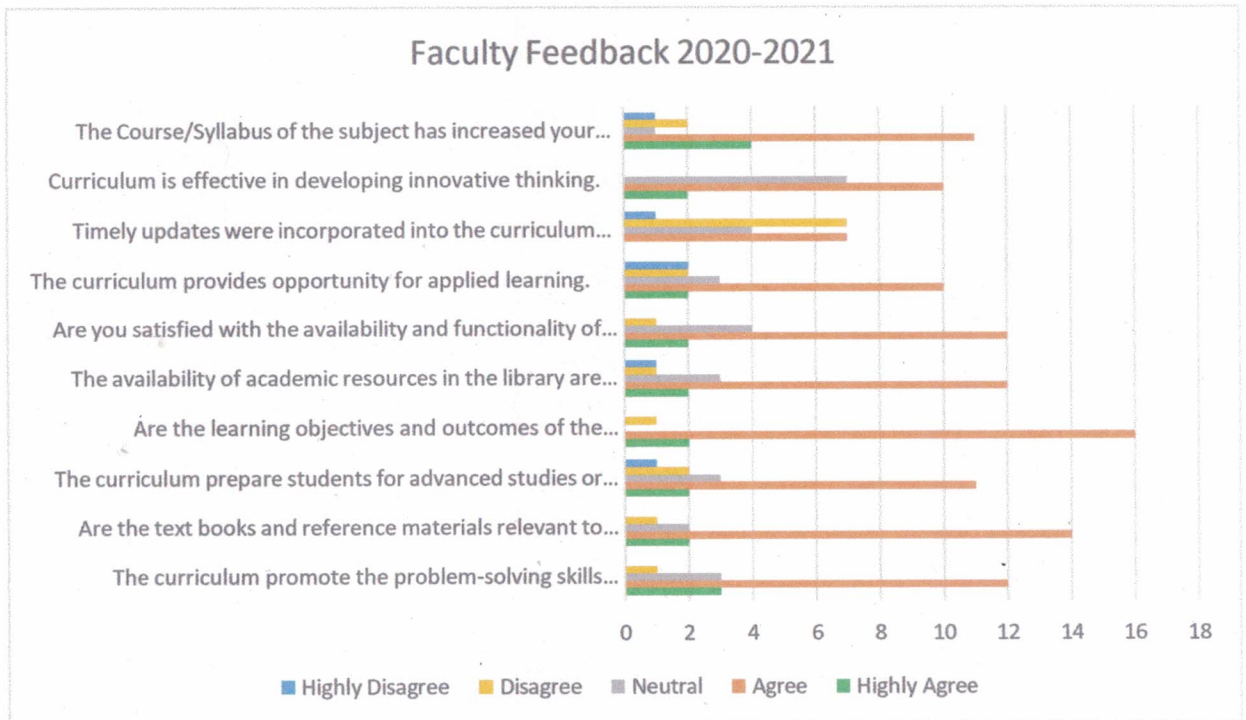

Suggestions from students

Students expressed overall satisfaction with the academic and non-academic facilities provided by the college. But they have some suggestion to

1. Revise the syllabus to integrate practical applications with theoretical knowledge, making it more relevant and effective.
2. Students recommended enhancing the library facilities to better support their academic needs and research endeavors.

Faculty Feedback

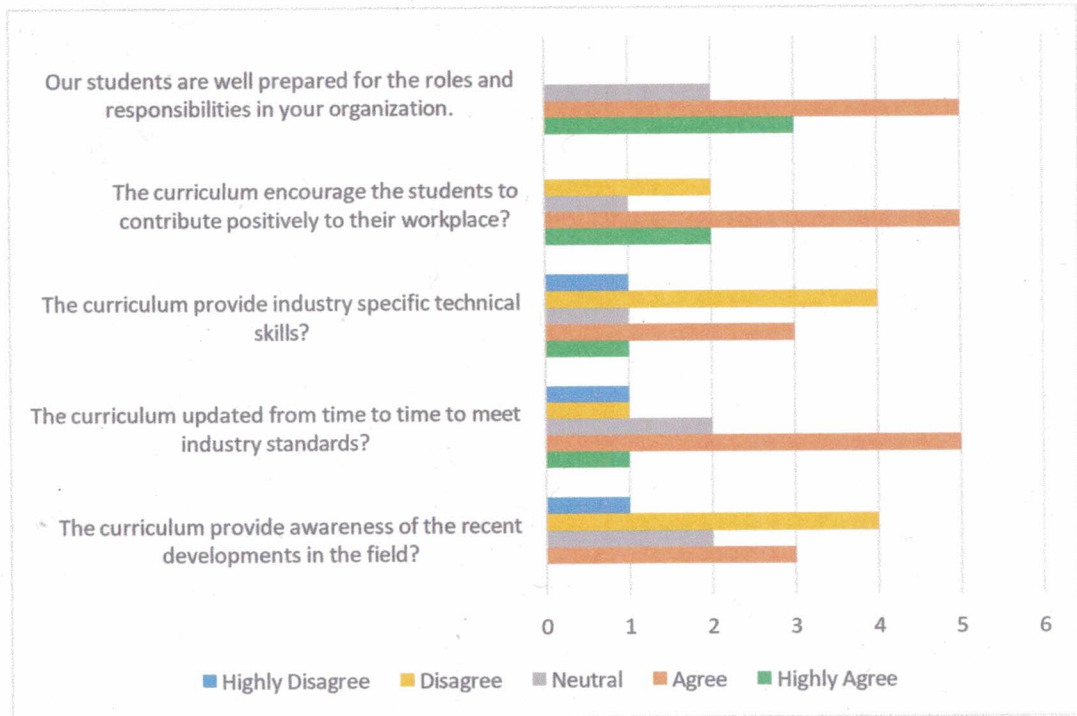

Suggestions

1. The curriculum should be revised so that it provides opportunity for applied learning.
2. The curriculum should be enhanced with timely updates to reflect the latest developments and advancements in the field.
3. A few of them suggested to improve the library facility.

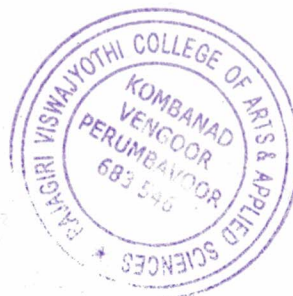

Employer Feedback

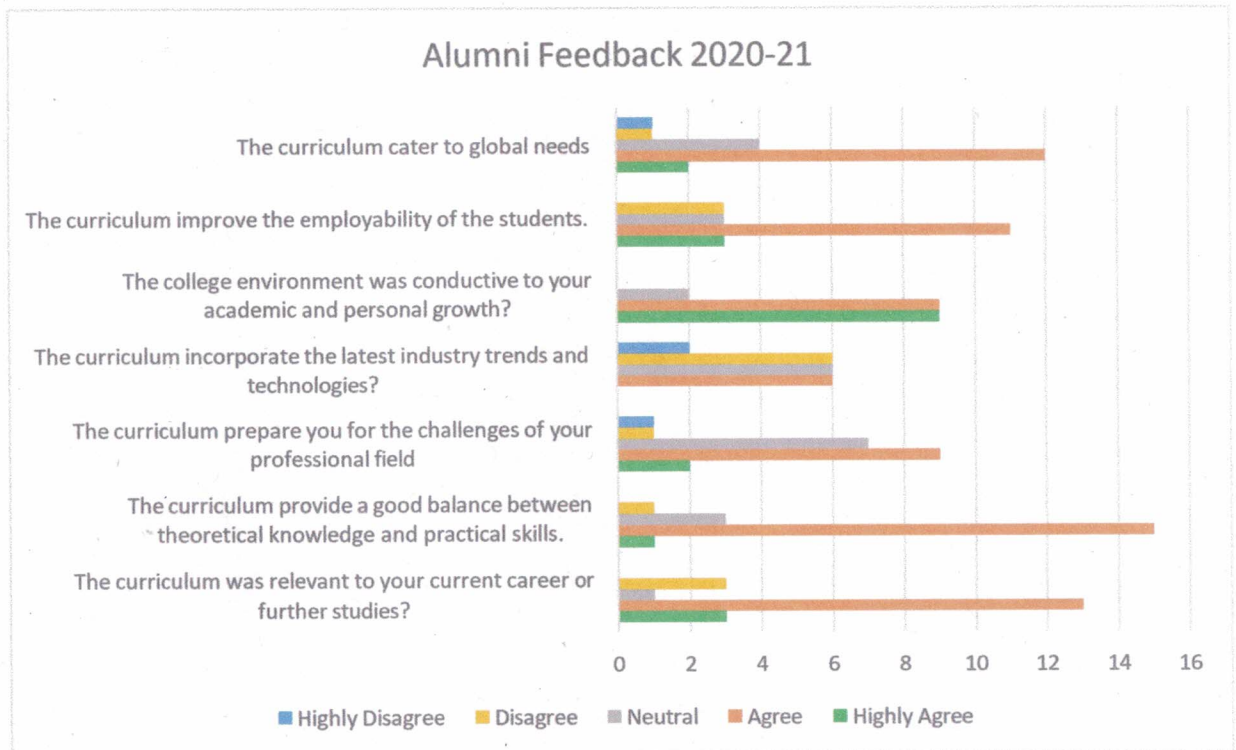

Suggestions

1. The curriculum needs to be updated to reflect industry-specific technical skills.
2. The curriculum must align with current industry standards.
3. The curriculum should keep pace with recent industry developments and trends.

Alumni Feedback

Suggestions

1. The curriculum needs to be updated to incorporate the latest industry trends.
2. The curriculum should be updated to prepare students to face the challenges and demands of their professional field, equipping them with the necessary skills and expertise.

We hereby submit this report to the college council and management for their review and further guidance.

Febi Abraham
